G2 Safety Policy

G2 Secure Staff is committed to ensuring a **Non-Stop** safety and security culture that proactively identifies and manages risks. To achieve this culture, we will provision the necessary resources and personnel to operate an effective Safety Management System (SMS) according to these key values:

People – Collaborate with our employees and business partners to ensure a safe and healthy work place free from uncontrolled hazards and shall;

- Strive to reduce occupational injury and illness risks through effective training, safe equipment and SMS procedures;

- Empower employees at every level of the organization that they have the responsibility to work safely and the authority to **"Stop The Process"** in order to prevent injuries or accidents from unsafe conditions or behaviors.

- Provide non-punitive resources to effectively report safety hazards and issues in the workplace to mitigate or eliminate hazards before they lead to an accident/incident.

- Ensure that unacceptable behavior is not tolerated. Those behaviors that may require disciplinary action are detailed in the company's Employee Handbook.

Service – Work with employees, business partners and airports to prevent customer injuries and damage to aircraft, equipment and facilities while delivering world class customer service.

Integrity – Expects employees to do the right thing at all times and in all circumstances;

- Meet or exceed all applicable regulatory requirements and customer expectations;

- Accurately report and maintain records required for safe operations;

- Establish annual goals to drive continuous improvement and monitor safety performance through regular management reviews.
